	Roberto Rabago	1762				
The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

1. Claims 1-16, 18, 25-39 and 41-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reasons set forth in item 3(a) of the Office action mailed 7/21/2010.

## Double Patenting

- 2. Claims 1-15, 17, 18, 25-37 and 40-45 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-22 of copending Application No. 12/311,730 for the reasons set forth in item 5 of the Office action mailed 7/21/2010.
- 3. Applicant's arguments filed 10/21/2010 have been fully considered but they are not persuasive. Regarding the definiteness issue, applicants argue that "the upper and lower limits of this range are defined by the process that is claimed," and that the process encompasses any temperature below 100°C that provides the polymer P. This argument is not accepted because it provides no clarity to the intended scope of "significantly below 100°C", and furthermore argues for limitations which are not found in the claims. Contrary to applicants' assertion, the claimed range is not defined by the process that is claimed, because the balance of the process limitations do not include

any mention of the temperature of the second step. The temperature is stated as a required process variable, and therefore it must be defined in a sufficiently clear manner so that one of ordinary skill in the art can determine the meets and bounds of the claims. If applicants' intended the claimed scope to be <u>any</u> temperature below 100 °C, as asserted in their remarks, then the claims should have been originally drafted to reflect that meaning. However, the claims <u>do not</u> permit the second step to be performed at any temperature below 100 °C, but only at temperatures in a range "significantly below 100 °C", for which no clear definition exists.

Regarding the double patenting rejection, applicants argue that the rejection should be withdrawn because the copending application is later-filed. However, since the instant claims are rejected on other grounds, the rejection will not be withdrawn at this time.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Application/Control Number: 10/593,541 Page 4

Art Unit: 1762

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rabago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
